" MYSTERIOUS!" DISAPPEAR-ANCE.

Mystery, says the" China Press " of " January 18, surrounds the disappearance of Mr. A. Roberts, the chief engineer of the i.C. s.s. Taksang. The vessel arrived in Shanghai from Tsington on Monday, and when she was made fast alongside the whorf Mr. Roberts left the ship and has not since been seen by the ship's officers and crew.

On Tuesday evening he left his mother's residence at No. 7b. Miller Road, about 7,30 saying he was going to the ship. Later he was seen in the Astor Bar with a friend, whom he left at midhight, saying he was going aboard. His friend saw him get in a rickshaw and go

towards the wharf. Inquiries have been made by the river | + GENERAL SUPPLIES 'A. police and the shore police and its was learned from the quarter-master of the Tak-ang that while he was on watch between midnight and one o'clock on Wednesday morning he heard a sound as if something had fallen into the water. He looked over the side but saw nothing

and heard nothing further. The missing man was forty-eight years of age and was a native of Shanghai. He served his apprenticeship as an engineer in the employ of Messrs. Farnham, must be properly filled up, signed and Boyd and Co. He joined the Indo-China dated, and no Tender will be considered as a junior engined and eventually rose to the rank of chief.

In dealing with the opium question, and the disregard of Treaty engagements by the Chinese, the Peking correspondent of The Times notes that an unfortunate symptom of the spirit animating the new regime is the infinite ingenuity expended in evading or avoiding plain obligations. The failure frankly to recognise and loyally observe foreign rights alienates sympthy on all hands, and only adds to the many difficulties confronting the Government. There is no serious attempt to hold the elections throughout the country, and the impossibility of meeting the Assembly by the appointed date (Feb. 16) makes a long extension of provisional government inevitable. The London and China Express.

AMERICAN WOMEN ANGRY. To be a married diplomat you must be

more than a diplomat. You must be able to rule your heart with your head, and above all you must have 516 selected a woman for your wife who is able to keep a secret. But should a diplomat marry a woman who is not of his own country? And if he does would he be in danger of being betrayed by his own wife? These questions arise from an intimation by the German Imperial Chancellor for

Memorial to Sir Edward Grey.

The Representative Board of British Inti Opium Societies has forwarded to Sir Edward Grey a memorial in which it is asserted that the recrudescence of poppy growth is due to temporary causes. The memorial continues that opium is, with little exception, a winter crop,; occupying the ground from October to April, so that the reports of renewed poppy growth relates to a period during which disorder prevailed in the greater part of China. Recent information shows that the Republican Government is taking active measures to prevent poppy growth during the season how commencing. Regret is expressed at the inclusion in the Agreement with China of May 8 1911, of a clause binding Chinese to withdraw all restrictions on the wholesale trade in Indian opium, whilst hey are declared entitled to suppress opium-smoking and to regulate the retail trade in all opium, native and foreign. It cannot but seem vexatious, the memorial erges, to a Chinese Governor honestly desirous of suppressing all opium c nsumption that whilst he can actually stop the KINGSCLERE. production of the native drug by sending soldiers to root up the poppy a step which has frequently been taken—he cannot stop the rade in foreign apium at its source by prohibiting its import into his province without being charged with infringing Treaty rights. It is urged that remons'rances with the ac ion of the Chinese anthorities should only of deliberate descrimination against the lareign drug, and that this cannot safely be inferred from the fact that subordinate officials have permitted poppy growth during the recent times of disturbance. Numerous articles in the Chinese Press show that the representations made on this subject have conveyed the improveion that the British Government is not in sympathy with the efforts made, with success, to overy out a great moral reform. In view of the thrice repeated declaration of the House of Commons that the opium trade is morally indefensible, the memorial deplores that His Majesty's Government hould appear to threaten the Republican Government with the withholding LETTERS OF CREDIT and DRAFTS of recognition unless it can compel its officials to facilitate that trade for another four years. The memorial urges that it is highly impolitic that Treaty stipulations in favour of such a trade should be placed on the same footing as those which protect the trade in innocent and useful articles. The memorial concludes by a fresh appeal to the Government to release China forthwith from all the obligation to admit Indian opium and to bring the traffic to an

Still only a few people are aware of the great value of this remedy. There is an old proverb that Experience is the best teacher.' My family and I were attacked by severe colds and coughed so that for several rights we could not enjoy sleep. I decided to try Chamberlain's Cough Romedy and when we together had emptiod the bottle we were all cured. I recommend this remedy as a true and family physician. Odol is the first and only preparation for cleansing the mouth and teeth which absolutely counteracts the causes of microbic formentation. While all other preparations are effective cain during the few moments of application, the autisoptic and refreshing power of Odol continues gently but persistently for hours atterwards. - This absolutely certain effect, scientifieally proved, is principally due to an entirely new and unique property of the preparation which causes it

to penetrate the interstices of the teeth and the mucous membrane of the mouth, to a certain extent impregnating them, and thus securing an after effect lasting for hours; which no other mouth-wash can produce, not even approximately.

Owing to this characteristic ... peculiar only to Odol, the whole oral cavity, to its minutest recesses, is completely freed from and protected, against all fermenting processes and injurious bacteria.

THE PANAMA CANAL.

The Union Of The Atlantic And The Pacific.

President Taft has appointed the chief engineer, Colonel Goethals, to the post of Civil Governor of the Panama Canal zone. The change of government on the Isthmus will take place in April, and Colonel Goethals will serve till the canni is formally opened with the passage of

the fleets of the world on January 1st,

Two years ago Colonel Goethals expected to turn the water in the canal on December 1st, 1923. So gratifying has this year's progress been that he believes, says the Daily News and Leader, the bed will be ready for the union of the Atlantic and Pacific waters on July 1st.

Colonel Goethals went to the canal with Mr Taft in 1905, succeeded Mr Theodore Shorts as chairman of the Canal Commission in 1907, and since then has dominated "the big ditch." The zone consists of 436 square miles, 96 of which are occupied by the canal, the actual length of which is

This was the final match in the First Division and was played on the Naval ground yesterday. Pearson started for the soldiers who at once took up the attack, Pearson and Lewis running down but the winger was offside when a goal seemed likely. Scott pulled up Smith amartly and put Kelly in a scoring position, but he was just wide with a good effort. Several fouls were checked by the Referee and a caution improved matters. The Tamar now did more of the attacking, and from nice play by Gloynes, Frust was nearly through, Rogers saving finely. Ferrigan was prominent for the soldiers, a nice pass from him allowed Lewis a clear course to centre, and Pearson obtaining, pussed on to Kelly who shot hard into the net notching the first point. Tamer responded gamely. Mees working hard in trying to put his forwards through but the soldiers defence kept them well i hand, Frost especially being well marked. With the soldiers returning to the attack Kelly and Sutherland were making tracks. for goal when Harcourt stepped in but Pearson took the ball from Mees and dribbling round Tucker put in a fine shot which Turner put for a corner at the second

The Annual Meeting.

The Bishop of Victoria presided at the annual meeting of seatholders of and subscribers to St. John's Cathedral, held in the City Hall yesterday. There were also present among others H.E. Sir Henry May, Sir Paul Chater, Hon. Mr. C. H. Ross, Hon. Mr. E. Osborne, Colonel W. B. St. John, Dr. F. Clark. Rev. V. Copley Moyle, Meesrs. W. L. Pattenden, W. Armstrong, A. Bryer, N. J. Stabb, H. J. Gedge, T. F. Hough, F. Browne, A. Beck, G. Piercey, M. S. Northcote and Dr. Saunders.

Dr. Clark, hon, treasurer, submitting his annual statement, said this was the first time for some years that the Cathedral finances had shown a credit balance. This amounted to \$1,746, although as a matter of fact the actual difference between the income and expenditure was \$1,450; the income for the year had been \$15,524, and the expenditure \$14,074. That meant that the income had been reduced by \$1,500 and the expenditure by \$3,000. The reduction in income was general. Pew-rents were reduced by about \$250, donations by \$300 and collections by about \$500, making a total of \$1,250. It had to be remembered that though there was this credit balance the reserve fund, which somie years ago was \$7,000 or \$8,000, had been reduced to about \$1,000. It was not necessary under present conditions to draw upon this fund, and he: hoped that in the future they would be able to increase it in addition to starting other funds. It would be readily seen that it was impossible to pay the stipends of two Chaplains in the present state, of

St. John, Mr. Armstrong, Dr. Clarko and Mr. Stabb.

The Rev. V. H. Copley Moyle moved a licerty vote of thanks to all the workers' in connection with the Cathedral. He particularly mentioned the clergy whohad voluntarily taken services, Mr. Bryer, Mr. Pattenden, Mr. Denmar Fuller, Mr. Wood (the auditor), the ladies who had provided flowers week by

week, and the choir. Thanks were also due to Sir Paul Chater for having arranged for the collection of over \$12,000 for the Assistant Chaplain's Fund. It was possible now that they would get a full-time Chaplain in the near future. (Applause.) The subscribers to the fund numbered 37. and they had given very liberally. He strongly urged other members of the congregation to give increased support to the fund through the medium of the offertories. There was much work in the Colony, particularly among young men,

The votes of thanks having been carried with acclamation, Dr. Clark proposed the re-election of Mr. G. Wood as auditor; this was acconded by Mr. M. S. Northcote and carried.

The facts relative to the naval engagement have become known, and encountged by reports of the Hamidieh's success the Turkish commander has ventured southward. At Tenedos he began to retire slowly. Immediately the Greeks sighted the Turks they fired over three hundred shells and claim that they inflicted much damage, though they themselves suffered severely at Assini. SOCIETY.

During the absence of Rev. H. R. Wells the Rev. T. H. Caren has kindly acted as Superintendent. He has thrown his efforte unreservedly and his means generously into the work. All has been highly appreciated. Before Mr. Wells went away he haptized 47 people at Un Long, of whom 18 were children. Candidates are numerous as most of the Stations. Since the last report 14 have been baptized at Tsun Wan, eight at Tai O and six at Lum Taun, of these only 4 were children. Nearly all were young men between 15 and 30 years old. The absence of women condidates is deplored. If they come forward in grow-

ing numbers it will mean much more for At Un Long there has been some persistent petty persecution of Christians. Through the efforts of Mr. Caren and the preacher these have been stopped.

At Tai O the work has had a set-back. The shop has been rented over our heads and a new location is being sought. The Colporteur was sick in hospital for a fortnight. His visits have now been resumed. It is expected that the vigorous efforts being made will speedily result in a restoration and an advance. Two of the recently-baptised people

have been married in the Lum Tsun Chapel-the first wedding in the new building. Mr. Stock and a friend (K.O.Y.L.I.) visited this place on two Sundays in December and were delighted with the numbers, reverence and eagerness to learn; which were in evidence. In the hired "chapels" there is now scarcely enough accommodation for the Christians to say nothing of the congrega-

tions wishing to hear the gospel. The representatives of our Stations at tanded the first meeting of the District Chinese Congregational Church Council. This is a sign of times: it promotes

unity and co-operation. The whole sepect of the work is most cheering. The great hopes are being more than fulfilled. Subscriptions for maintenance and for new buildings may be sent to the Hon. Treasurer, Dr. The case was proceeding when we went Sibrec, 18, Bank Buildings, Wyndham Street. Union Church Record.
